ABSTRACT

This report provides information about the Montgomery County Public Schools (MCPS); specifically, it reports statistical data about schools and their administration on a school-by-school and office-by-office basis. The report is organized into seven sections: (1) purpose and organization of the report and definition of terms; (2) county and school system data; (3) county summaries of school profiles; (4) school and administrative area profile; (5) alternative center profiles; (6) administrative offices and departments profiles; and (7) list of specialized statistical reports about MCPS. All of the data elements are listed and individually defined; their sources are also identified. (Author/GK)

Acknowledgements

This report would be incomplete without acknowledgement of the following staff members who made significant contributions to its accuracy, timeliness, and visual appeal:

Mrs. Jo Ann Leigh was the primary typist and was assisted by Dale Conlan in setting up the report on the word processing equipment.

David Stream designed the cover and prepared the overlays for marginal identification of the report sections.

Mrs. Constance Mitchell supplied much of the data from reports prepared in her office.

Mrs. Dorothy Green, Mrs. Patti Chambers, and Tom Green recorded data for the typists and assisted in proofing the tables.

Yi Chen and George Williams performed the data processing.

INTRODUCTION

This report is one of two companion reports issued by the Department of Educational Accountability, the Annual Test Report and the Statistical Profiles. Together they provide a set of comprehensive information about Montgomery County Public Schools (MCPS) for use by school system staff and the public. The Annual Test Report documents and analyzes the current cycle of systemwide testing on a school-by-school basis. The Statistical Profiles reports general information and statistical data about schools and their administration on a school-by-school and office-by-office basis.

There have been few changes in the format of the Statistical Profiles as published in 1978-79, and virtually all of the data elements reported in the Statistical Profiles have been available to the general public in prior years from various official school system reports. (A list of other specialized statistical reports about MCPS is included in Section VII). The data listed in this report were generated from existing computer files and central office reports and required no additional data acquisition from schools. Providing the data in a single document, however, serves three important purposes:

- It reduces the response burden formerly required of school personnel by including much of the data commonly requested of schools by members of the community.
- It assures standard definitions, standard formats, and sound statistical procedures to generate the data uniformly across all schools and administrative units.
- It provides a ready reference for MCPS staff, members of the Board of Education, and government agencies which need accurate consolidated data to conduct their ongoing activities.

TYPES OF DATA REPORTED

The data elements in the school and alternative center profiles may be categorized as student characteristics and enrollment data, staff characteristics and allocations, and general information. The school profiles report two years of data, 1978-79 and 1979-80, for students and staff. The alternative center profiles report only the most recent year, 1979-80. The student data include enrollment totals and minority distributions of student populations. The proportions of students by sex, reported in the 1978-79 Statistical Profiles, were dropped this year because the proportions were predictably close to fifty percent in all schools. This data element is included, however, for the alternative centers, where this generality did not apply.

The staff data, also reported for 1978-79 and 1979-80, include the allocation in full-time-equivalents (FTE) as well as the number of persons (N) occupying the allocated positions. Staff characteristics reported are the highest degree attained, the number of years experience, ethnic background, and sex.

The general information data elements in the profiles for each school are percent of attendance; percent transported; mobility rate; average class size; student/professional staff ratio; length of the marking period; hours in the school day; enrollment capacity and the number of rooms; the value of property destruction; and the feeder-receiving schools.

The profiles for the administrative offices and departments contain staff information analagous to that reported for the schools and alternative centers. Each profile also names the director or associate superintendent and shows to whom this person reports in the administrative structure.

All of the data elements are listed and individually defined; and their sources are identified at the end of this section.

Table 1 summarizes MCPS enrollment for the five-year period FY76-FY80 and shows the projection for 1981. Table 2 lists county planning projections for population, income, and housing units for the calendar years 1977-1981. Since the FY81 MCPS Operating Budget is not final at the time of publication of this year's Statistical Profiles, this fiscal information is not reported here.

A new feature is included in the report this year in response to questions from readers concerning how individual schools compare with others in the county. Tables 3-6 in Section I show the range and distribution of values in the county for a selected set of the data elements. By comparing the data elements for any one school with these distributions, the reader will be able to identify differences among schools and to know whether a particular school is high, average, or low within that distribution.

ORGANIZATION OF THE REPORT

The report is organized in seven sections:

Section I. Purpose and organization of the report; definitions of terms and data elements

Section II. Selected data about the county and the school system: county planning projections for population, income, and housing (1977 - 81); and distributions of selected data elements reported in the school profiles

Section III. County summaries of school profiles; namely, five profiles summarizing those for senior high schools, junior high schools, middle schools, elementary schools, and all schools in the county (including the alternative centers)

Section IV. School profiles and administrative area summaries analagous to those at the county level

Section V. Alternative center profiles and a single summary profile for the nine centers

Section VI. Profiles for administrative offices and departments

Section VII. List of specialized statistical reports about MCPS

To facilitate location of data for a particular school, the Table of Contents lists the schools alphabetically within administrative areas. The administrative area numbers, "A" (alternative centers), and "O" (offices) are tabbed in the margins of the profiles so that reference to a particular section can be made quickly by flipping the edges of the pages. In addition, an alphabetical listing of all schools, included with page references following the Table of Contents, will provide the best locator if the administrative area is not known to the reader.

DEFINITIONS OF TERMS AND DATA ELEMENTS

ALTERNATIVE CENTER

Definition: An MCPS school where the main program is special education for children with special needs. Statistical profiles are included for all such centers listed in the MCPS Official Enrollment Report for September 28, 1979. Alternative centers are also referred to in various MCPS reports as "special schools" or "supplementary centers."

Alternative center profiles are identfied by name of the center; a three-digit location number; the address; telephone number; and the name of the principal.

Source: MCPS Directory (1979-80)

AVERAGE CLASS SIZE

Definition: A ratio calculated for the elementary schools only

The calculation formula in elementary schools is A divided by B multiplied by 100, where:

A = the regular student enrollment; namely, those in kindergarten or Grades 1-6. No special education or Head Start pupils are included.

B = the number of attendance sections for this same group of pupils.

MCPS Official Enrollment Report by Grade, School, and Area, as of September 28, 1979 (Revised November 1979)

AVERAGE PUPIL ATTENDANCE

Definition: This ratio, expressed as a percent, is calculated as follows: A divided by B multiplied by 100, where:

A = the average daily attendance (ADA) and B = the average number belonging (ANB).

Source: ADA Report of Pupil Attendance for October 1979

DEPARTMENT

Definition: An MCPS administrative unit headed by a director who reports to the superintendent or to an associate superintendent

Department profiles include the following identifying information: name of the department; location; telephone number; name of the director; and the title of the administrator to whom the director reports.

ENROLLMENT

Definition: Total enrollment includes each grade, Head Start, and special education. Special education enrollment includes only students in self-contained classes. Special needs students and mainstreamed students are not identified as special education students. Enrollment in alternative centers is classified as elementary or secondary.

	Source:	For the school year 1979-80: The number of students, by grade level, listed in the MCPS Official Enrollment Report by Grade, School, and Area, as of September 28, 1979 (Revised November 1979) For the school year 1978-79: The number of students, by grade level, listed in the MCPS Official Enrollment Report by Grade, School, and Area, as of September 29, 1978 The percents of students enrolled, also reported, were calculated from the data in these two reports.
ENROLLMENT CAPACITY	Definition:	The estimated number of students that can be accommodated in the building, based on an allocation of space for different grades and types of programs
	Source:	Budget Request Capital Expenditures for the Fiscal Year Ending June 30, 1980
ETHNIC BACKGROUND	Definition:	The number and percent of students enrolled on September 29, 1978 and September 28, 1979, based on categories of race established by the U.S. Department of Health, Education, and Welfare
	Source:	Minority Group Membership of Pupils, as of September 28, 1979 (Revised November 1979) Minority Group Membership of Pupils, as of September 29, 1978
FEEDER SCHOOLS	Definition:	The schools from which students are estimated to have come, for those students in the entry grade level at the school being profiled. The percent of the feeder school class is given.
	Source:	Budget Request Capital Expenditures for the Fiscal Year Ending June 30, 1980
HOURS OF SCHOOL DAY	Definition:	The time during which the school is open for classes. This is given as the beginning and ending time of the school

day for students. For alternative centers, where necessary schedule shifts take place during the school year, the number of hours per day is given rather than specific beginning and ending times.

Source: Office of the Deputy Superintendent of Schools and the Department of Multifacility Programs/Alternative Centers.

MARKING PERIOD

Definition: The number of weeks in each report card grading cycle

Source: Office of the Deputy Superintendent of Schools and the Department of Multifacility Programs/Alternative Centers

MOBILITY RATE

Definition: This ratio, expressed as a percent, is calculated as follows:

A = the total number of entries and withdrawals during the year.

B = the official September 29, 1978 enrollment.

Source: The mobility rate is computed in the Department of Educational Accountability, using data from the MCPS Report on Enrollment, Attendance, and Promotions, July 1979.

NUMBER OF ROOMS

Definition: The estimated number of classrooms in the building, based on an allocation of building space for different grades and types of programs

Source: Budget Request Capital Expenditures for the Fiscal Year Ending June 30, 1980

OFFICE

Definition: An administrative unit headed by the superintendent or an associate superintendent

Office profiles are identified by the name of the office; location; telephone

number; and the name of the superintendent or associate superintendent.

Source: MCPS Directory (1979-80)

POSITIONS ALLOCATED

Definition: Allocations, by categories, derived from the position classifications effective July 1, 1979

Definitions of the staff categories for 1978-79 are listed in the Statistical Profiles, 1978-79. Two changes were made in 1979-80 in the staff categories. First, additional staff positions are included so that the total number of staff in a building is reported. For example, all of the supporting services positions are reported rather than only those related to the instructional program.

Second, some categories have been added. The principal and assistant principal, formerly included in the category of Other Professional Staff, are this year reported in a separate category. Other categories reported separately this year (though included in larger categories last year) are Head Start Teachers and Instrumental Music Teachers.

Vacancies, identified in the Personnel Master File and the Position Control File by the computer program on which these data are based, were listed separately in the Statistical Profiles 1978-79. They are shown in this report only as a difference between the totals for professional staff allocations and the number of staff for which characteristics are reported.

The categories of staff include the following types of positions:

PROPERTY DESTRUCTION	Definition:	Total gross loss (including glass breakage, theft, miscellaneous destruction, and fire costs for FY79
	Source:	School Security Office as of June 31, 1979
PUPILS TRANSPORTED	Definition:	The percent of pupils bused to school
	Source:	MCPS Transportation Report, September 28, 1979 (Run date 10/26/79)
RECEIVING SCHOOLS	Definition:	The school to which students are estimated to progress, for those students in the highest grade level at the school being profiled The percent of students progressing to each receiving school is also given.
	Source:	Budget Request Capital Expenditures for the Fiscal Year Ending June 30, 1980
SCHOOL	Definition:	An MCPS building which houses a diversified program of elementary or secondary education. Statistical profiles are included for all schools for which enrollment by grade level is listed in the MCPS Official Enrollment Report for September 28, 1979 (Revised 11/7/79). School profiles are identified by the school name; address; telephone number; a three-digit location number; the name of the principal; and a single digit identifying the administrative area to which it belongs.

STAFF CHARACTERISTICS	Definition:	Four characteristics of staff as listed in the Personnel Master File are reported for 1978-79 and 1979-80. These characteristics are:

Highest Degree Status: The highest degree, or degree equivalent, recorded for the staff

Years of Experience: The total number of years of experience credited to staff members on the Personnel Master File. This data element is recorded and kept up to date on the professional staff file but not on the supporting services staff file. Therefore, this element is not reported for supporting services staff.

Sex: The sex of staff members, whether male or female, as recorded on the Personnel Master File

Ethnic Background: The racial group membership of staff members, whether minority or white, as recorded on the Personnel Master File

Source: A computer run, based on the Personnel Master File and Position Control File on December 10, 1979

STUDENT/PROFESSIONAL STAFF RATIO

Definition: A ratio A divided by B where:

A = the weighted enrollment for September 28, 1979.

B = the number of professional staff, excluding those classified for the profiles as special education, Head Start, resource room or special needs teachers.

The enrollment is weighted as follows:

1/2 X (half-day kindergarten enrollment) OR 1 X (full-day kindergarten enrollment) + (regular enrollment in Grades 1-12) + 0 (special education and Head Start enrollment). The following schools have full-day kindergarten: Rosemary Hills, Rock Creek Forest, Montgomery Knolls, New Hampshire Estates, East Silver Spring, and Woodlin.
